Biodegradable Paper Cups

Our Biodegradable paper cups are screen printed to provide a high quality, sharp image.

Because these eco-friendly, biodegradable cups use corn based PLA lining, these unique cups can be used for **hot or cold liquids**. Cups are 100% compostable in municipal and commercial composting facilities.

Our custom printed biodegradable cups are normally printed on the blank white cups with the "ecotainer" logo at the bottom. Custom printed cups can also be printed on the leaf design background, please specify in your order.

100% Made in the USA.

Drinking Cups & Lids

Pricing includes a 1 color imprint, 1 or 2 sides. Full wrap available, call for pricing.

Biodegradable Plastic Cups

Our soft sided biodegradable plastic cups are made from PLA, a resin made entirely from plants. Our cups are crystal clear for maximum branding visibility. Cups and lids are 100% compostable.

Our cups can be paired with either flat straw slot or clear dome lids that are made from the same biodegradable plastic. Our lids are designed to fit multiple size cups with 1 lid.

100% Made in the USA.

Drinking Cups & Lids

Pricing includes a 1 color imprint, 1 or 2 sides. Full wrap available, call for pricing.
